

Green Building

Green building allows for the use of alternative sources of water such as rainwater, reducing water waste through the installation of plumbing fixtures that are efficient and reducing the strain on shared water resources by installing systems that purify water and enable recycling.

So as a responsible organization BD Technology provides these services :

- LEED Certification/ Green Building Certification From USGBC For :
 - ✓ Building Design and Construction (BD+C)
 - ✓ Interior Design and Construction (ID+C)
 - ✓ Building Operations and Maintenance (O+M)
